1. Background

The Newton Fund builds research and innovation partnerships with 17 partner countries to support their economic development and social welfare, and to develop their research and innovation capacity for long term sustainable growth. It has a total UK Government investment of £735 million up until 2021, with matched resources from partner countries. The Newton Fund is managed by the UK Department for Business, Energy and Industrial Strategy (BEIS), and delivered through 7 UK delivery partners, which includes UK Research and Innovation (comprising the 7 research councils and Innovate UK), the UK Academies, the British Council and the Met Office. For further information visit the Newton Fund website (www.newtonfund.ac.uk) and follow via Twitter: @NewtonFund.

Tackling global challenges – such as extreme weather conditions, urbanisation, access to affordable health care, food and energy security, and meeting the social and economic needs of a growing population – requires an integrated research and innovation approach, bringing together communities from different disciplines, sectors and countries in high-quality collaborations.

The Newton Fund Institutional Links Programme is designed to establish links beyond the level of the individual researcher and innovation practitioner, opening up opportunities for sustainable, solution-oriented research and innovation collaborations between academic groups as well as with the private and third sector.

Overview of the funding opportunity

Newton Fund Institutional Links grants provide small scale seed funding for collaborations between the UK and the participating Newton Fund countries in each call to:

- Initiate new research and innovation collaborations between academic groups, departments, and institutions in partner countries and the UK
- Develop existing collaborations at group, departmental, and institutional level
- Encourage these collaborations to work with non-academic organisations and individuals to support the exchange of research and innovation expertise and the translation of research knowledge into tangible benefits
- Establish local hubs for UK--partner country activity in a particular area, enabling engagement from the wider research and innovation community.

The Institutional Links Programme is designed to be flexible and responsive to in--country needs, allowing applicants to establish collaborations on specific areas linked to country priorities and development needs, and to bring in relevant private and third sector partners, including small and medium enterprises (SMEs), non-governmental organisations (NGOs), technology transfer offices, and other not for-profit organisations.

Grants typically range from £50,000 to £300,000 for up to two years, dependent on the country (see Appendix 1 for country specific limits).

For best fit to the local context and development needs, priority areas, specific innovation challenges and additional application requirements have been set at a country level through discussion with national stakeholders. Please refer to Appendix 1 for country specific guidance before you prepare your proposal. Proposals which do not follow the country specific guidance cannot be considered for funding.

---

1 Links with particular additional countries may be possible in individual calls; please check Appendix 1
2. Scope of the programme

Grants under the Newton Fund Institutional Links programme allow partners to collaborate internationally, and gain access to new research environments, facilities, knowledge, and expertise, in order to enhance the quality of their research and enable them to translate research and innovation into economic and societal benefit.

All research and innovation collaborations funded by this programme will:

- **Establish new research and innovation links, or significantly develop existing links, between research groups, departments or institutions with the potential for longer term sustainability.** A key aim of the collaboration will be to support research and innovation capacity building in the partner institution, as well as to stimulate longer term links between the UK and partner countries for research and innovation. We encourage applicants to use this as an opportunity also to engage with the commercial and not-for-profit sectors.

- **Focus on topics or themes which have relevance to the economic development and welfare of the partner country.** Institutional Links grants are intended to support areas relevant to the economic development and social welfare of partner countries. Before preparing your proposal, please see section 4 for a definition of development relevant research and Appendix 1 for additional priority or challenge areas for individual countries.

Wherever possible, Institutional Links collaborations should demonstrate how they will benefit the wider research and innovation community in the partner country.

Collaborations may also be established as UK–partner country centres of excellence, based in the partner country, in a particular research area, acting as a resource hub for the wider research community in country and a focal point for other activities, (e.g. seminars, technical training workshops).

Countries to be involved in the April 2020 call are:

**Indonesia, Turkey, Thailand**

When designing your proposal, you should consider how best to involve early career researchers to promote their development and, more generally, to build researcher capacity, especially in the partner country.

Newton Fund Institutional Links grants can cover costs which support research and innovation collaboration, including: human resources costs; travel costs associated with exchange of researchers, students and staff from partners and other organisations; the costs of organising meetings, seminars and training; and other activities to establish and strengthen collaborative links. Grants can also include a limited contribution to other research related costs (including equipment, consumables and non-staff fieldwork costs); however, this is capped at 30% of the total value of the grant. As funding for the project can be disbursed via both the UK and the partner country funding agencies, in some countries there may be restrictions on partner country costs. Please refer to Appendix 1 for details.

Institutional Links grants can also support the training of technical staff, or finance other activities necessary for the translation of the research into benefit, thereby laying the foundations for longer term impact on the research and innovation landscape, and on economic development and social welfare. All expenditure must be detailed in the budget spreadsheet provided on the website at the following link:

In addition, a summary of costs to be covered by the grant must be included in the online application form and must contain justifications, (e.g. periods of research assistant time, why consumables or equipment are needed). Interim and final financial reporting on grant expenditure, and narrative reporting using ResearchFish will be required as a condition of the grant.

3. Official Development Assistance (ODA) eligibility

For the purpose of Institutional Links, we define activities leading to impact with development relevance as activities that have the potential to contribute to the economic development and social welfare of low and middle-income countries\(^1\), benefitting low income and/or vulnerable populations in these countries.

In order to be considered for funding under Institutional Links, all proposals must clearly demonstrate a primary focus on development and articulate a plausible route to positive impact within a short to medium term timeframe (within 10 years). Applications which do not meet this criterion cannot receive support under Institutional Links.

In some disciplines, development relevance can be longer term and less direct than in other areas. In all cases, it is the responsibility of the applicant to articulate within the application how the proposed activities will meet these criteria.

For more on our approach to ODA, please see: http://www.newtonfund.ac.uk/about/what-is-oda/

Applicants must complete the ODA compliance section of the application form and should not expect reviewers to make assumptions about development impact that is not clearly described within the proposal.

**Failure to demonstrate ODA eligibility will render your application ineligible regardless of other success criteria. Please make sure you consider the ODA relevance of your application. A strong case for your proposal must be made.**

In order to show development relevance within the context of their proposed project, applicants are advised to include within their application reference to any local or national consultation, links to government policies, and existing links with government institutions and must clearly articulate the importance to relevant in-country challenges.

Agreements for ownership and exploitation of intellectual property generated through project activities must be consistent with the primary aim of addressing development issues.

**ODA transparency and reporting**

As part of the government’s commitment to ODA transparency and in line with DfID ODA reporting requirements, there is a requirement to publish information about ODA grants including project titles and summaries via the International Aid Transparency Initiative (IATI) registry and via DFID’s national statistics.

The purpose of publishing information via the IATI registry is to make information about ODA easily accessible to governments, stakeholders and other relevant groups in beneficiary countries. All funded projects from this programme will be published in this way. Please

---

\(^1\) As defined by the OECD DAC list of official development assistance (ODA) recipients http://www.oecd.org/dac/stats/documentupload/DAC%20List%20of%20ODA%20Recipients%202014%20final.pdf
therefore write your project title and summary in such a way that they are meaningful and accessible to non-specialist audiences, following publication.

It is expected that the project title and summary are written in plain English and avoid the use of jargon, acronyms, puns and plays on words. **Please also make clear in your project title and summary how your project is ODA-compliant**, for example by identifying the development challenge(s) being addressed, the aims of the project and the beneficiary countries.

### 4. Gender Equality Statement

To comply with the International Development (Gender Equality) Act 2014, applications must outline how they have taken meaningful yet proportionate consideration as to how the project will contribute to reducing gender inequalities in the Gender Equality Statement section of the application form.

**Applicants are required to consider the impact their project will have on gender.** This should be about the project specifically – the outputs and outcomes; the make-up of the project team; participants, stakeholders and beneficiaries of the project; and the processes followed throughout the research programme. It should not be a re-statement of your Institution’s policy, you may refer to the policy, but should show how the policy will be implemented in terms of the project. The Gender Statement must **address the below criteria**, with an understanding that, depending on the nature of the research and innovation, not all questions will be applicable. **If a question is not applicable, you will need to articulate the reasons why.**

- Have measures been put in place to ensure equal and meaningful opportunities for people of different genders to be involved throughout the project? This includes the development of the project, the participants of the research and innovation, and the beneficiaries of the research and innovation.

- The expected impact of the project (benefits and losses) on people of different genders, both throughout the project and beyond.

- The impact on the relations between people of different genders and people of the same gender. For example, changing roles and responsibilities in households, society, economy, politics, power, etc.

- How will any risks and unintended negative consequences on gender equality be avoided or mitigated against, and monitored?

- Are there any relevant outcomes and outputs being measured, with data disaggregated by age and gender (where disclosed)?

British Council reserve the right to reject the application if no consideration has been given to gender equality or if the proposal is assessed to result in a negative impact for gender equality.
5. Eligibility

Proposals must fulfil the following criteria in order to be eligible for funding under this Programme:

- Each proposal must have one Principal Applicant from the UK and one Principal Applicant from the partner country.
- Both Principal Applicants must be Leading Researchers or Established Researchers.
- Principal Applicants must be permanent employees of one of the following (this means that Emeritus and Honorary Professors may not apply as lead):
  - A not-for-profit higher education institution with the capacity to undertake high-quality research, unless specified otherwise in Appendix 1.
  - A UK higher education institution (all UK higher education institutions are eligible).
  - A not-for-profit research organisation with the capacity to undertake high-quality research. The list of eligible UK institutions is attached with the grant call documents on the website. A Catapult Centre (in the case of the UK Principal Applicant).
  - Both of the Principal Applicants’ institutions (the ‘Lead Institutions’) must have the capacity to administer the grant.
- Individual departments within a single institution can make multiple applications per call provided that the proposed activities are clearly different.
- Principal Applicants may only submit one Institutional Links application per Institutional Links call.
- Principal Applicants that have received Institutional Links grants in previous years can submit further applications for Institutional Links provided the proposed activities are clearly distinct from, or build on, any already funded through the Newton Fund. Principal Applicants may not apply if they have already received an Institutional Links grant that year. In all cases the additionality must be clearly articulated in the application.
- Organisations affiliated to higher education institutions in the UK or any other country and based in the partner country, (e.g. an overseas campus) are not eligible for Newton Fund awarded grants.

To support the translation of research and innovation into benefit, Principal Applicants are encouraged to include in their proposals Associated Partners affiliated with:

- Other research or higher education institutions
- Technology transfer offices
- Not for-profit organisations (including NGOs)
- For-profit/commercial organisations (including SMEs)

---

2 For an indication of profiles for the two categories, we suggest applicants refer to the European Commission document ‘Towards a European framework for research careers’
[https://cdn5.euraxess.org/sites/default/files/policy_library/towards_a_european_framework_for_research_careers_final.pdf](https://cdn5.euraxess.org/sites/default/files/policy_library/towards_a_european_framework_for_research_careers_final.pdf)

3 [https://www.innovateuk.org/-/catapult-centres](https://www.innovateuk.org/-/catapult-centres)
Not for-profit higher education institutions or publicly funded research organisations are eligible to apply as Lead Institutions.

For-profit organisations and not-for-profit organisations can participate in but are usually not eligible to apply for Institutional Links grants. Furthermore, for-profit organisations are not eligible to receive any grant funds except to cover travel associated costs.

Eligibility checks will be applied to all proposals on receipt. Proposals which are not led by a recognised not-for-profit higher education institution or a publicly funded research organisation (unless specified otherwise in Appendix 1) will be rejected during these checks. Please see Appendix 2 for a full list of eligibility criteria.

If you are unsure about your organisation’s eligibility, for UK see the list of eligible UK institutions attached with the grant call documents on the website; for partner countries, please contact the local British Council office.

6. Funding available

The level of grant funding available from the Newton Fund depends on the country: please see Appendix 1 for country specific guidance and funding limits.

Funds will be disbursed directly to the Lead Institution(s), (i.e. the Principal Applicants’ institutions) according to the approved final budget. Applicants may be asked to adjust their budget if their request does not fit within funding guidelines.

Unless stated otherwise, an advance payment of 60% of the Newton Fund grant will be made on signature of the grant agreement, followed by two payments of 20% dependent on approval of reports by the British Council. Please note that payment ratios can vary for different countries.

In some cases, the whole grant will be awarded to the UK Lead Institution, which will then disburse the funds to the Lead Institution in the partner country; in other cases, there is a separate grant agreement with each Lead Institution.

Lead Institutions may transfer funding to Associated Partners for activities which support the objectives of the collaboration and the overall Programme\(^4\). Any costs of Associated Partner contributions should be included in the proposed budget for the respective country. As detailed above, for-profit organisations are not eligible to receive any grant funds except to cover travel associated costs.

Please note that Appendix 1 specifies further, country specific information on eligible and ineligible costs.

Please complete the budget spreadsheet as provided on the call website with details of all costs: https://www.britishcouncil.org/education/science/current-opportunities/newton-fund-institutional-links

Please also complete the budget summary on the online application form with the totals from your budget spreadsheet and a brief justification for the amounts applied for.

The following sections detail the costs that can and cannot be included in your budget request.

6.1 Eligible costs

\(^4\) Note that for-profit organisations are only eligible to receive funds to cover travel-associated costs.
Institutional Links grants are intended to contribute to the direct costs of establishing and operating your collaboration, (i.e. costs directly related to implementing activities contained in the proposal).

The British Council is committed to equal opportunities and diversity and will consider, on a case by case basis, requests for support to encourage under-represented groups to engage in Institutional Links activity, so long as sufficient justification is provided.

Institutional Links grants can cover:

<table>
<thead>
<tr>
<th>Category</th>
<th>Type</th>
<th>Percentage limits</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Human Resources costs</strong></td>
<td>Staff costs for personnel working directly on the grant funded project: salaries and fees of temporary research and research assistant personnel, and other staff recruited to work solely on the project.</td>
<td>None.</td>
<td>This includes on-costs such as superannuation, and national insurance payments. Indirect costs cannot be covered and are assumed to be contributed by the principal institutions.</td>
</tr>
<tr>
<td></td>
<td>A proportion of staff costs for permanently employed staff of lead institutions.</td>
<td>Limited to 30% of total human resources funds requested. (30% of UK HR requested grant unless specified in Appendix 1)</td>
<td>This includes on costs such as superannuation, and national insurance payments.</td>

<tr>
<td><strong>Operational Costs</strong></td>
<td>Travel (economy class) and subsistence costs to the UK and partner countries.</td>
<td>None See country specific guidance.</td>
<td>In line with British Council policies and the criteria detailed in Appendix 1.</td>
</tr>
<tr>
<td></td>
<td>Visa fees, vaccinations and medical insurance for travel essential to collaboration, to the UK and partner countries.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Costs of meetings, training events and seminars integral to the collaboration.</td>
<td></td>
<td>This can include short-term room hire, hire of audio-visual equipment (projectors, etc.) and stationery supplies (flip-charts, etc.) Attendance at events which are not part of the project, included in the proposal, will only be funded exceptionally, and only if the collaborators will be presenting about the project.</td>
</tr>
</tbody>
</table>
### Category | Type | Percentage limits | Notes |
--- | --- | --- | --- |
**Basic catering costs** | Associated with events or meetings directly relating to the collaboration. | None | This includes web page development by external providers, if appropriate. We particularly encourage open access publishing. |
**Communications costs** | Publication costs directly related to the collaboration. | None (see country specific guidance). | |
| Use of telecommunications such as video / audio / web conferencing. | | | |
**Other costs** | Bank charges for transfer of funds from the Lead Institution to other Partners. | Note that for-profit organisations are only eligible to receive funds for travel associated costs. | |

### 6.2 Ineligible costs

Institutional Links grants **cannot cover:**

- Full economic costs (FECs).
- Institutional overheads, administration fees and other indirect costs.
- Costs of staff based in commercial or for-profit organisations.
- Costs of permanent staff in Associated Partner organisations.
- Purchase or rental of standard office equipment (except specialist equipment essential to the research). This includes:
  - IT hardware – laptops, personal computers, tablets, smart phones, Mac workstations, computer parts and peripherals, etc. Any standard hardware which would routinely be used by researchers and academics will not be funded.
  - Office software.
  - Desks, chairs, filing cabinets, photocopiers, printers, fax machines.
  - Mobile phone rental or purchase.
  - Roaming charges.
  - Tuition Fees.
  - Bench Fees (for example PhD, Masters or Undergraduate study).
  - Costs related to writing up, promoting or disseminating previous research.
  - Attendance at conferences or other events unless this is to present outputs and outcomes of the project.
  - Patents costs.
  - Costs relating to the construction, procurement or rental of physical infrastructure, (e.g. office buildings, laboratory facilities). It is expected that any
rooms and facilities essential for the routine operation of collaboration are provided as an in-kind contribution by the participating institutions. These can be detailed as an in-kind contribution in the budget breakdown.

- Entertainment costs such as:
  - Gifts.
  - Alcohol.
  - Restaurant bills or hospitality costs for personnel not directly participating in the project.
  - Excessive restaurant costs.
  - Excessive taxi fares.
  - Other indirect costs not listed in the above table or detailed in Appendix 1.

Please contact UK-InstitutionalLinks@britishcouncil.org if you are in doubt which costs the Institutional Links Programme can and cannot cover.

To ensure value for money, the budget requested in your proposal (including human resource costs) should cover only costs that are essential, appropriate and relevant to the collaboration. The proposal should maximise cost share through direct and indirect institutional contributions, in-kind funding, other funding sources, and private sector support.

Please indicate in the appropriate budget spreadsheet (and summarise as indicated on the application form) funds applied for from other sources to cover the collaboration; please clarify the status of the funding applications, (i.e. successful; decision pending). Please indicate when you will know the outcome of any pending applications.

For most countries, there is no minimum requirement for in-kind funding in the application, but these contributions will be looked upon favourably as a demonstration of long-lasting commitment to the programme.

7. Project duration

The maximum duration of the proposed collaboration is 24 months (less for some participating countries – see Appendix 1). Funding, if approved, will be transferred to the successful institution once the grant agreement is counter-signed by the British Council. Formal project start dates will be set in the grant agreement by the British Council. Expenses incurred by the institutions prior to the effective start date, including any costs incurred in the production of the proposal, cannot be charged to the grant.

8. Ethics and research governance

It is essential that all legal and professional codes of practice are followed in conducting work supported by this Programme. Applicants must ensure the proposed activity will be carried out to the highest standards of ethics and research integrity.

It is the absolute responsibility of the Project Leaders and the Lead Institutions to ensure that appropriate ethical approval is granted and adhered to, and that no research requiring ethical approval is initiated until it has been granted.

In the online application form, applicants must clearly articulate how any potential ethical and health and safety issues have been considered and how they will be addressed, ensuring that all necessary ethical approval is in place before the project commences and all risks are minimised. Specifically, applications that involve research on animals, human participants, human tissue or patient/participant data must be accompanied by necessary permission certificates from the relevant local ethical review committees/authorities in the UK and the partner country, or an undertaking to obtain this permission in advance of the activity.
commencing. Failure to do so will result in applications being rendered ineligible and any funding already committed through this Programme being rescinded.

The Lead Institution in the partner country is responsible for managing and monitoring the conduct of medical and health research in a manner consistent with the UK Policy Framework for Health and Social Care Research. There must be effective and verifiable systems in place for managing research quality, progress and the safety and well-being of patients and other research participants. These systems must promote and maintain the relevant codes of practice and all relevant statutory review, authorisation and reporting requirements. Applicants are responsible to obtain ethical approval from relevant authorities before the start of activities that require such approval. Applicant must ensure that the work carried out adheres to the local guidelines for best practice.

Please refer to the Research Councils UK ‘Policy and Guidelines on Governance of Good Research Conduct’ (http://www.rcuk.ac.uk/Publications/researchers/grc/), the Inter Academy Partnership report ‘Doing Global Science: A Guide to Responsible Conduct in the Global Research Enterprise’ (http://www.interacademycouncil.net/24026/29429.aspx) or contact us at UK-Institutionallinks@britishcouncil.org for further guidance.

9. Diversity

British Council are committed to equality, diversity and inclusion, and to continuing to attract and nurture talented people from the widest pool to remain internationally competitive in research and innovation. We believe that everyone has a right to be treated with dignity and respect, and to be provided with equal opportunities to flourish and succeed. This includes avoidance of bias due to disability, gender reassignment, marriage or civil partnership status, pregnancy and maternity, race, religion or belief, sexual orientation, sex (gender), and age.

We also recognise, and will seek to maximise, the benefits achieved by diversity of thought and experience within inclusive groups, organisations and the wider community. British Council are therefore committed to ensuring that the best potential researchers from a diverse population are attracted into research careers. Applicants are asked to consider encouraging participation from researchers from under-represented groups in the teams implementing their proposed activities.

Applicants may apply for funding to cover extra costs for such participation, for example, for disabled people who may otherwise not be able to participate, or for additional childcare. Please describe any action you are taking to encourage diversity under “Collaboration” (4th question) on your application form. Please make costs necessary to cover this inclusion clear in the ‘human resources’ section of the budget request within your application.

Please contact us at UK-Institutionallinks@britishcouncil.org for further information on funding. For more on the British Council’s approach, see our Equality Policy at: https://www.britishcouncil.org/about-us/how-we-work/policies/equality-diversity-inclusion

10. Submission process

The deadline for submission of a completed application including all supporting documentation is 16:00 UK time on 12 June 2020. Proposals submitted after the deadline will not be considered for funding.

The deadline applies to all parts of your application, including the uploading of fully completed supporting documentation. Any applications which are not submitted in full by the deadline, with all required supporting documents, will be considered ineligible. Appeals against this decision will not be accepted.

Applicants for all calls must submit a completed online application form at the following link: https://britishcouncil-cxobw.formstack.com/forms/application_form_newtonil_april2020 which includes the uploading of supporting information. The online form allows applicants to enter
information and save it for a later date until final submission. There are strict character limits for each section which cannot be exceeded.

In addition to filling in the online form, applicants are required to upload the following documents, as described, by the deadline. As above, late submission of supporting documents, or submission of documents which do not comply with these requirements, will render the application ineligible. The documents are:

- Principal Applicants’ CVs (up to two sides of A4 each)
- A detailed project budget (template available on the British Council call webpage)
- Letters of support from the UK and partner country Principal Applicants’ institutions in English, on headed paper, signed by the Head of Institution, Head of Department or other person with appropriate delegated authority, expressing specific commitment to the proposed project, willingness to receive funding, a description of in-kind support to be given and describing why the experience and capability of the Principal Applicant is particularly suited to the project content. Please note that supporting letters must not be signed by the Principal Applicants. If it is not possible to provide signed letters on headed paper because of Covid-19, we can accept formal emails from Heads of Department (or equivalent) in pdf format.
- If the proposal includes Associated Partners, a pdf file combining together signed letters on letter headed paper from each partner containing a maximum of 300 words on the expertise they will bring to the project and the role they will take. There is only one slot for uploading Associated Partners letter, so all supporting letters must be submitted as a combined document. Links to partner websites should be included if applicable. Letters from every Associated Partner listed in the application must be provided. If it is not possible to provide signed letters on headed paper because of Covid-19, we can accept formal emails from Associated Partners in pdf format.

Any other documents uploaded with your application or sent late or separately will be not be considered, unless these are specified in Appendix 1).

Applications must be in English.

This is solely to allow you to develop your responses in a convenient format. The final version of your application must be submitted using the online form.

If you experience problems with the online submission system, please contact UK-InstitutionalLinks@britishcouncil.org before the submission deadline. If you alert us to technical issues after the deadline, we will not be able to take them into consideration when assessing the eligibility of your application.

Before the completed online application form can be submitted to the system, applicants will be asked to confirm on the form that they have:

- obtained permission to submit the proposal on behalf of the UK institution(s) and of the partner country institution(s). This must be confirmed by attaching Letters of Support or formal emails from the respective institutions signed by the Head of Institution, Head of Department or other person with appropriate delegated authority.
- confirmed the Principal Applicants’ Institutions, (i.e. the Lead Institutions’) willingness to receive the funds and to sign a grant agreement with the British Council or the national partner, also confirmed in the Letters of Support.
• complied with British Council policies on prevention of fraud, bribery, money laundering and addressed any other financial and reputational risk that may affect a transparent and fair grant award process. See: https://www.britishcouncil.org/organisation/transparency/policies/anti-fraud-and-corruption

Once the online application is submitted, the system will generate a unique application ID number. Applicants should note this number and use it in all communications with the British Council. Applicants who have not received this ID number should contact the British Council at UK-InstitutionalLinks@britishcouncil.org.

11. Applicant screening

In order to comply with UK government legislation, the British Council may at any point during the application process, carry out searches of relevant third-party screening databases to ensure that neither the applicant institutions nor any of the applicants’ employees, partners, directors, shareholders is listed:

• as an individual or entity with whom national or supranational bodies have decreed organisations should not have financial dealings
• as being wanted by Interpol or any national law enforcement body in connection with crime
• as being subject to regulatory action by a national or international enforcement body
• as being subject to export, trade or procurement controls or (in the case of an individual) as being disqualified from being a company director, and/or
• as being a heightened risk individual or organisation, or (in the case of an individual) a politically exposed person.

If the applicant or any other party is listed in a Screening Database for any of the reasons set out above, the British Council will assess the applicant as ineligible to apply for this grant call. The applicant must provide the British Council with all information reasonably requested by the British Council to complete the screening searches.

Please read the text to this effect on the application form and tick the box to show that you understand this.

12. Selection process

Selection begins with an eligibility check by the British Council against the eligibility criteria given in these Guidelines, including Appendix 1 (Country specific guidance) and the Eligibility Checklist at Appendix 2).

Eligible proposals then undergo independent external quality review on the basis of quality, fit to development needs and country priorities, capacity building potential and likely sustainability of the collaboration, as follows:

• Assessment and scoring in the UK by independent experts (see Appendix 3 for assessment form).
• Thorough review in the partner country.
• Review by a UK Review Panel of experts, which determines a UK panel score, ranks applications and makes recommendations for funding. The Review Panel considers whether proposals are of high quality (being intellectually innovative, well focused and methodologically sound), and whether the activity has the potential to have a real impact on economic development and social welfare in the partner country.
• Review of development relevance against Official Development Assistance (ODA) definitions established by the OECD and guidance developed by the Newton Fund with advice from the UK Department for International Development, see http://www.newtonfund.ac.uk/about/what-is-oda/. All proposals must clearly articulate a plausible route to positive impact of the research on the lives of low-income populations and to a contribution to the economic development and social welfare of the partner country within a reasonable timeframe (3–15 years). If the proposal is deemed not to meet this essential criterion, it will be rejected for UK Newton funding however high the quality of the proposed research.

• Final decision making in the partner country based on UK and partner country review and ODA scores, in collaboration with UK Newton Fund partners, in country stakeholders and national co-funding organisations.

In the UK, eligible proposals are reviewed by one of five Review Panels:

• Biological and Medical Sciences
• Engineering and Physical Sciences
• Environment, Agriculture and Food Sciences
• Social Sciences
• Arts and Humanities.

Please indicate in the application which Review Panel should assess the proposal and select up to three subject areas in priority order. We reserve the right to allocate your proposal to a different Review Panel.

Proposals are quality assessed against the criteria at Appendix 3, resulting in a total score between 0 and 60. Those receiving a final score from the Panel meeting of less than 30 will be considered not fundable. However, achieving an average score equal to or above the threshold does not mean that the proposal will be funded.

Country specific priorities and challenge areas will be considered in the final decision, in addition to the general assessment criteria, see Appendix 1 for priorities by country.

Only proposals which have clearly articulated relevance to economic development and social welfare (as defined in Section 4 above) will be considered for funding.

Successful applicants will be notified approximately 5 months after the call deadline.

13. Data protection

How we use your information

The British Council will use the information that you provide for the purposes of processing your application, making any awards, monitoring and review of any grants.

We may share all application data with UK Research and Innovation (UKRI), the Academy of Medical Sciences, the British Academy, the Royal Academy of Engineering, the Royal Society and with our funding partners in the partner country in order to assist with management of the application process. We will share anonymised aggregated information with the UK Department for Business, Energy and Industrial Strategy (BEIS). Any decisions on successful grants will be made in collaboration with them.

The British Council comply with the General Data Protection Regulations 2016/679 (EU) GDPR). We process and handle personal information according to these regulations. The personal information that you provide on this form will only be used for the processing of your application. The information will be viewed by British Council, and those who are part of the decision-making process. Your information will not be used/shared beyond the partners listed
above for any other purpose without your specific consent. British Council reserve the right to publish and share anonymized aggregated information with stakeholders.

Organisation details, where collected, are used for monitoring and evaluation and statistical purposes. Gender information and country of origin, where collected, is used solely for statistical purposes. If we need to contact you, we will do so using the contact details you have provided.

Under UK Data Protection law, you have the right to ask for a copy of the information we hold on you, and the right to ask us to correct any inaccuracies in that information. If you want more information about this, please contact your local British Council office or the Data Protection Team inforgovernance@britishcouncil.org or see our website: http://www.britishcouncil.org/privacy-cookies/data-protection.

14. Contractual Requirements

- The contracting authority is the British Council which includes any subsidiary companies and other organisations that control or are controlled by the British Council from time to time (see: www.britishcouncil.org/organisation/structure/status).
- The successful applicants will be expected to undertake activities in the UK and in the Newton Fund countries listed in section 3 of these guidelines (Scope of the Programme).
- The British Council is subject to the requirements of the UK Freedom of Information Act, (“FOIA”). Please indicate in your application whether FOIA also applies to your organisation, so that we can reflect this in the Grant Agreement should you be successful in your application.
- The British Council’s contractual approach in respect of the grant is set out at:

- (Terms and Conditions of the Grant Agreement) (“Grant Agreement”). By submitting a response to this call for applications, you are agreeing to be bound by the terms of these guidelines and the Grant Agreement without further negotiation or amendment.
- In the event that you have any concerns or queries in relation to the Grant Agreement, you should submit a clarification request to UK-InstitutionalLinks@britishcouncil.org in accordance with the provisions of this call for applications by the application deadline. The British Council reserves the right not to make any changes to the Grant Agreement.
- The British Council is under no obligation to consider any clarifications / amendments to the Grant Agreement requested following the application deadline.

15. Partnering Service

Prospective applicants to an open Newton Fund call should note that Universities UK International (UUKi) offers a partner matching service to help connect Newton Fund partner country researchers to potential UK collaborators. Applicants in Newton Fund partner countries wishing to use this service should complete UUKi’s Partner Request Form, ideally as soon as possible after the launch of the call and at least four weeks ahead of the call deadline.

UUKi is then able to suggest UK researchers or research groups which have similar research interests and expertise and may therefore be interested in collaborating.
Partnership requests will also be included on Auki’s Opportunities for Collaboration webpage.

16. Contact details

All queries or comments about this call should be addressed to the Institutional Links email address: UK-InstitutionalLinks@britishcouncil.org.
## APPENDIX 1: COUNTRY SPECIFIC- GUIDANCE

To ensure optimal fit to the local context and development needs, priority areas, specific innovation challenges and additional application requirements – such as maximum grant sizes and durations – have been set at a country level through discussion with national stakeholders.

This appendix provides country specific guidance which applicants should consider in conjunction with the main body text of this document **before** preparing their proposals. Proposals which do not take into account the country specific guidance **cannot be considered for funding**.

<table>
<thead>
<tr>
<th>Country</th>
<th>Co-funder:</th>
<th>Duration of grants:</th>
<th>Size of grant:</th>
<th>Thematic priority areas:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Indonesia</td>
<td>RISTEK-BRIN</td>
<td>24 Months</td>
<td>Newton fund (UK Side): Minimum £50,000, Maximum £80,000 from Newton Fund. Ristek-BRIN (ID Side): IDR 180,000,000 to IDR 1,200,000,00 (approx. £10,000 to £65,000 - Based on type of focus and research outputs) for two years.</td>
<td>Theme: <strong>Addressing COVID – 19</strong> Following the case of Covid-19 global pandemic, the impacts of the pandemic have generated urgent need for new, novel, relevant, interdisciplinary research. The research proposal should be able to cover the priority sectors as below with relevance to Covid-19 pandemic. 1. <strong>Energy</strong>: Clean Energy, Electricity Technology, Energy Management, Efficient, Conservation &amp; Smart Energy Technology 2. <strong>Health</strong>: Raw Materials for medicines and natural medicines, Medical Devices &amp; Instrumentation, Genetics, Digital Health, Immune system 3. <strong>Transportation</strong>: Transportation Infrastructure &amp; Facilities 4. <strong>Marine</strong>: Maritime Infrastructure &amp; Connectivity; Protection &amp; Utilization of Maritime Resource 5. <strong>Multidisciplinary and Cross-Sectoral</strong>: Disaster Management, Biodiversity, Nutrition &amp; Stunting Countermeasures, Environment, Water Resources &amp; Climate Change 6. <strong>Social Humaniores, Arts &amp; Education</strong>: - Smart, Healthy, Courageous and Highly Competitive Human Resources - Industrial Era 4.0 - Political System Policy, Democracy and Regional &amp; Village Autonomy - Development of Regional and Village Productivity for Quality and Sustainable Economic Growth</td>
</tr>
</tbody>
</table>
- Enrichment of Arts & Creative Industries, Preservation and Protection of Cultural Values, Local Wisdom, Language
- Strengthening Indonesia’s Role and Interests at Regional and Global Levels

8. **Food**: Modern Biotechnology (Seeds, Plants, Livestock and Fish), Intelligent Industrial-Based Agricultural Industrial Technology, Technology for Improving the quality & production of salt

**Contractual arrangements:**

The Newton Fund pays UK institution and in-country co-funder (Ristek-BRIN) pays in-country institution.

**Additional eligibility criteria:**

Applicants will be expected to download the Indonesia Specific Guidelines in link below, which is available at ‘Downloads’ section at the end of the webpage [https://www.britishcouncil.id/en/programmes/education/newton-fund/newton-institutional-links](https://www.britishcouncil.id/en/programmes/education/newton-fund/newton-institutional-links)

**Key points to note:**

1. Please note that application should be sent to British Council only (you don’t have to send application to RistekBRIN).

2. When proposing the budget in the application, you will be required to complete a spreadsheet detailing one column for UK side budget and Indonesia side budget. Please refer to Indonesia specific guidelines on how to identify the figure for Indonesia budget.

3. Indonesia Funding cannot be used for: Staff Costs/Salaries

4. **Additional Eligibility Criteria:**
   a) **Additional Eligibility for Indonesia Principal Investigators:**
      i. ID PI should be a permanent lecturer holding *Nomor Induk Dosen Nasional* (NIDN) or *Nomor Induk Dosen Khusus* (NIDK)

   b. **For Basic Research:**
      i. ID PI holds PhD degree and at least at the post of expert assistant (*asisten ahli*) or beyond.
      ii. ID PI has at least two (2) articles published in reputable indexed database and/or accredited national journal as first author or corresponding author
      iii. Research team consist of 1 – 2 persons

   c. **For Applied Research:**
      i. ID PI holds PhD degree and at least at the post of expert assistant (*asisten ahli*) or beyond.
      ii. ID PI has at least two (2) articles published in reputable indexed database and/or accredited national journal as first author or corresponding author, or minimum has 1 registered IPR.
      iii. Research team consists of 1 – 2 persons.
b) Upon submission of the application, we require the applicant to submit a document that expresses 2 parties-agreement to complete the research collaboration. This can be in the format of Letter of Intent or MoU should there be any.

Other considerations:

Successful projects’ start dates will be **17 February 2021**.

Each project should allocate travel budget under the Newton Fund UK allocation for travel of Indonesian researchers and UK researchers to both countries and possibility to stay in each country for a period of time.

Indonesia grant does not cover human resource costs and purchase of equipment. Indonesia grant is not limited to 30% for ‘other research-related costs’. Human resource costs and other research related costs limitations set out in the guidelines do apply to UK grant.

Submission process:

One application via UK system

### 3.1 Thailand - OPS

<table>
<thead>
<tr>
<th>Co-funder:</th>
<th>Office of the Permanent Secretary, Ministry of Higher Education, Science, Research and Innovation (OPS)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Duration of grants:</td>
<td>12 Months</td>
</tr>
<tr>
<td>Size of grant:</td>
<td>£77,500</td>
</tr>
</tbody>
</table>
| Thematic priority areas: | BCG:  
• Bioeconomy  
• Circular economy  
• Green economy  
Covid-19 related research are also eligible to apply for the call. |

**Contractual arrangements:**

Newton Fund pays UK institution, and OPS pays Thai institution.

British Council will contract and pay UK institutions in 3 instalments:

- 80% / 10% / 10%.
- Transfer upon approval of financial report and sufficient funding used.
- Maximum budget for the UK side is £40,000 per project.

OPS will pay Thai institutions in 1 instalment: 100% (maximum budget for the Thai side is 1,500,000 THB).

**Additional eligibility criteria:**
Other considerations:

Proposals must have elements of either industry, or social engagement. Successful projects’ start dates will be **17 February 2021**.

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>

</tr>
<tr>
<td><strong>Other research related costs</strong></td>
<td>Same as UK (ie. Max 30% of total grant requested)</td>
</tr>
</tbody>
</table>

**Additional process for Thai applicant**

Upon selection, the Thai applicant must submit a separate budget request to confirm the project budget for Thai side in Baht.

**Reporting**

Both Thai and UK applicants are to submit online narrative report, and financial report to British Council.

**Submission process:**

One application via UK system.

### 3.2 Thailand – NRCT

**Co-funder:**

National Research Council of Thailand (NRCT)

**Duration of grants:**

12 months

**Size of grant:**

£50,000 – £100,000

**Thematic priority areas:**

- Bio Economy, Circular Economy and Green Economy (BCG)
- AI for all, Data Economy
- Aging Society
- Social Science and Humanities
- Sustainable Management of Natural Resource

**Contractual arrangements:**

Newton Fund pays UK institution and NRCT pays Thai institution.
British Council contracts and pays UK institutions in 3 instalments:
- 80% / 10% / 10%
- Transfer upon approval of financial report and sufficient funding used.

NRCT contracts and pays Thai institutions in 4 instalments:
- 30% / 40% / 20% / 10%
- Transfer of funds will be initiated upon approval of progress report

Additional eligibility criteria:

Thai applicant **must**:
- Be a Thai permanent resident and hold Thai nationality
- Hold PhD degree or equivalent, have the research experience, and have a permanent position on university or research institutes in Thailand until the research could be completed
- **Not** hold a senior / executive position (Dean level or above)
- Have the potential for research administration and/or management
- Be able to operate research with international researchers and must be able to complete the research in time.
- **Not** currently hold an active project funded by the NRCT, unless the existing project is expected to be completed within 6 months of the announcement of this Institutional Links call.

Other considerations:

Successful projects’ start dates will be **17 February 2021**.

**Budgeting restrictions**
Thai and UK applicant each must request no more than 50% of the total budget (50% will be paid to UK institution and 50% will be paid to Thai institution)
- Thai budget is eligible to cover for public utilities related to the project.
- Human Resources cost for Thai applicant must **not** exceed 15% of Thai budget.
- Thai budget is **not** eligible to cover for cost related to the durable articles/goods.

<table>
<thead>
<tr>

<td>Limit 15% of Thai total grant (Regardless of permanent or non-permanent)</td>
</tr>
<tr>
<td><strong>Permanent staff cost</strong></td>
<td></td>
</tr>
</tbody>
</table>
| Other research related costs | Same as UK (ie. Max 30% of total grant requested)

**Additional process for Thai applicant**
Upon selection, Thai applicant must follow any regulations outlined by NRCT. This includes:
- Submit proposal (in Thai) to NRCT application portal
- Confirm Thai budget request in Thai baht
- Follow progress report submission deadlines

**Reporting**
UK applicants are to submit online progress report, and financial report to British Council.
Thai applicants are to submit progress report to NRCT, as well as online report to British Council.

<table>
<thead>
<tr>
<th>Reporting timeline</th>

</tr>
</tbody>
</table>

The Thai institution must follow any regulations outlined by NRCT.

**Submission process:**

One application via UK system.

---

### 4. Turkey

**Co-funder:**

TÜBİTAK

**Duration of grants:**

24 months

**Size of grant:**

The Newton Fund will pay up to £150,000 per project. For the Turkish partner funded by TÜBİTAK: up to 720,000 TL per project.

**Thematic priority areas:**

- ICT
- Machine Manufacturing
  - Robotics and mechatronics
  - Manufacturing automation systems
  - Additive manufacturing
  - Machine design and manufacturing
  - Fluid power, dynamics and fluid machines
  - Manufacturing technologies
  - Casting technologies
- Energy
- Automotive
- Health
  - Covid-19
- Agriculture and Food
- Social Sciences
• Other
  o Metallurgy
  o Advanced material technologies
  o Chemistry

**Contractual arrangements:**

The Newton Fund pays the UK institution and TÜBİTAK pays the Turkey institution.

**Additional eligibility criteria:**

For the UK Newton Fund eligibility criteria, please see Appendix 2.

For TÜBİTAK eligibility criteria, please see TÜBİTAK 1071 Programme rules: https://www.tubitak.gov.tr/sites/default/files/3125/1071_arastirma_projeleri_surec_dokumani.pdf

All Turkish researchers who apply must be registered on TÜBİTAK ARBİS (Researcher Information system) through the following link: http://arbis.tubitak.gov.tr

All researchers should receive Official Legal/ Private Permission Documents or Ethical Issues Documents. Proposals without the required Official Legal/ Private Permission Documents or Ethical Issues Documents will not be funded. For detailed information, please follow links below:

The UK assessment criteria will also incorporate similar points under relevant headlines so please make sure to take these into consideration as well.

**Other considerations:**

Successful projects’ start dates will be **17 February 2021.**

The Turkish co-funder TÜBİTAK gives utmost importance to the following areas while evaluating the project:

- Methodological / conceptual / theoretical contribution to the related scientific and technological area

- The quality and effectiveness of the scientific and technological methodology and research techniques

- Appropriateness of work plan regarding the work-time schedule

- Competence and expertise of applicant teams

- Appropriateness of current infrastructure of institutions

- Short term outcomes and potential long-term impacts and contribution to scientific community.
The UK assessment criteria will also incorporate similar points under relevant headlines so please make sure to take these into consideration as well.

Budget limitations set out in these guidelines are for UK applicants. Please refer to TUBITAK guidance for regulations related to TUBITAK applications.

**Submission process:**

Separate applications in the UK and Turkey.

The Turkish applicants should submit their applications through: http://uidb-pbs.tubitak.gov.tr/

The application at the Turkish side will be in English. Please note that the Turkey application form, after submission, should be saved as a pdf document and uploaded as an annex while making the UK application.

The UK applicants should submit their applications via UK system. UK applicants must submit the TÜBİTAK application form, provided by their Turkish partner in PDF format, as an additional document to their UK application.

The UK applicants must submit the TÜBİTAK application form, provided by their Turkish partner in PDF format, as an additional document to their UK application. Failure to do this will render the application ineligible.
## APPENDIX 2: Eligibility criteria checklist

<table>
<thead>
<tr>
<th>Eligibility criteria checklist</th>
<th></th>

<tr>
<td>The budget requested for permanent staff costs is 30% or less of the total budget requested for human resources costs.</td>
<td></td>
</tr>
<tr>
<td>If the partner country Lead Institution is affiliated in any way with a higher education or research institution in another country, (e.g. UK, USA), the proposal includes other eligible higher education or research institutions in the partner country.</td>
<td></td>
</tr>
</tbody>
</table>

⁵ https://www.innovateuk.org/-/catapult-centres
APPENDIX 3: ASSESSMENT CRITERIA AND SCORING SYSTEM

Assessment of the quality and development relevance of the proposals will be performed by expert reviewers, and the final funding decisions will be made in discussion with British Council country office and in country partners. Only proposals that have clearly articulated relevance to economic development and social welfare of the partner country will be considered for funding. In addition, only proposals with an average score of 30 points or more for Sections 2 to 4 are considered fundable.

<table>
<thead>
<tr>
<th>Section 1: Relevance to economic development and social welfare</th>
<th>Score</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>The proposal clearly articulates a plausible route for the research to lead to positive impact on the lives of people on low income and contribute to the economic development and social welfare of the partner country and within a reasonable timeframe (3–15 years). Please see section 4 of the guidelines for further details.</td>
<td></td>
<td>YES/NO</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Section 2: Relevance to gender equality</th>
<th>Score</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Measures are in place to ensure equal and meaningful opportunities for people of different genders to be involved throughout the project. This includes the development of the project, the participants of the research and innovation, and the beneficiaries of the research and innovation.</td>
<td></td>
<td>Sufficient/insufficient</td>
</tr>
<tr>
<td>• The project will have a positive impact on people of different genders, both throughout the project and beyond.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• The potential impact on the relations between people of different genders and people of the same gender is clearly described. For example, changing roles and responsibilities in households, society, economy, politics, power, etc.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Risks and unintended negative consequences on gender equality will be monitored, avoided or mitigated against.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Relevant outcomes and outputs will be measured with disaggregated data by age and gender (where disclosed).</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
**Section 3: Research/innovation quality and background**

<table>
<thead>
<tr>
<th>Score</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>0–20</td>
</tr>
</tbody>
</table>

- The academic importance and timeliness of the research/innovation topic is clearly demonstrated.
- The Principal Applicants have sufficient relevant experience to undertake the proposed research collaboration and achieve the stated objectives.
- The value added – to institutions and/or the wider research and innovation community – by the collaboration between the partnering institutions is clearly described.
- The collaborating institutions are of appropriate academic standing.
- The benefits and relevance of the research to the UK and partner country institution is clearly described.

**Score Range**

| 20 points: | Meets all criteria to an exceptional level |
| 16 to 19 points: | Meets the majority of the criteria to a very high level |
| 11 to 15 points: | Meets the majority of the criteria to a high level |
| 6 to 10 points: | Meets the majority of the criteria to an adequate level |
| 1 to 5 points: | Meets some of the criteria to an adequate level |
| 0 points: | Fails to meet any of the criteria to an adequate level |

**Section 4: Proposal**

<table>
<thead>
<tr>
<th>Score</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>0–20</td>
</tr>
</tbody>
</table>

- The description of the proposed collaboration includes clear, feasible and realistic objectives as well as potential for long term impact.
- Applicants clearly articulate specific outputs anticipated from the collaboration and objectives likely to be achieved.
- The proposal explains the benefits to both the UK and partner country researchers/innovation practitioners, institutions and end-users of the research or the products and services that will result from the project activity, in particular taking into account who might benefit and how they might benefit.
- There is strong evidence of support from the applicants’ institutions and Associated Partners (where applicable).
- The proposed collaboration supports new links or significantly extends and develops existing links.
- If the applicants’ institutions are collaborating already, there is clear evidence that the grant would add significant value to the collaboration.
- The proposal includes a clear and feasible description of the arrangements for project managing the collaboration and communication between partners.
- The proposal represents value for money; all costs are fully justified.

**Score Range**

| 20 points: | Meets all criteria to an exceptional level |
| 16 to 19 points: | Meets the majority of the criteria to a very high level |
| 11 to 15 points: | Meets the majority of the criteria to a high level |
| 6 to 10 points: | Meets the majority of the criteria to an adequate level |
| 1 to 5 points: | Meets some of the criteria to an adequate level |
| 0 points: | Fails to meet any of the criteria to an adequate level |
