PART ONE: INTRODUCTION

About the Cultural Protection Fund

The Cultural Protection Fund (CPF) is led by the British Council in partnership with the UK Government Department for Digital, Culture, Media and Sport (DCMS). It was launched in 2016 to protect vital cultural heritage at risk in conflict-affected regions. In 2019 the fund expanded its remit to protect cultural heritage at risk because of climate change and related disasters.

The overarching objective of the fund is to help create sustainable opportunities for social and economic development through building capacity to foster, safeguard and promote cultural heritage. The CPF awards funding to projects which keep cultural heritage sites and objects safe, as well as supporting the recording, conservation and restoration of cultural heritage. It also provides opportunities to local communities for training and education, enabling and empowering them in the long term to value, care for and benefit from their cultural heritage.

Cultural heritage includes many different things from the past that communities value and want to pass on to future generations, for example:

- archaeological sites and monuments
- collections of objects, books or documents in museums, libraries or archives
- historic buildings
- cultural traditions such as stories, festivals, crafts, music, dance and costumes
- histories of people, communities, places and events
- the heritage of languages and dialects
- people's memories and experiences (often recorded as 'oral history')

About the funding round

In late 2021, the British Council / DCMS partnership was awarded a further £30m to further its cultural heritage protection work for three more years until March 2025. A significant part of the work will be to continue and expand the Cultural Protection Fund, starting with the launch of new open calls in 2022, to which organisations can bid for multi-year heritage protection projects. The new funding rounds launched on 25 May 2022. There will be further rounds in 2023 and 2024.

Who can apply:

 - o **MENA:** Algeria, Egypt, Iraq, Jordan, Lebanon, Libya, Occupied Palestinian Territories, Syria, Tunisia or Yemen
 - o **East Africa:** Ethiopia, Kenya, Sudan, Tanzania or Uganda
 - o **South Asia:** Afghanistan¹

¹ the security situation is under ongoing review. We welcome proposals that benefit Afghanistan, including those delivering activities outside of the country. Proposals will be assessed taking into account our understanding of the situation at the time.

- Applications must be submitted by one lead applicant organisation with up to eight partner organisations. Either the lead applicant or at least one of the partner organisations must be based in a country where project activity is taking place.

- A lead applicant organisation can submit a maximum of three expressions of interests under any given round of funding but may only submit one full application. If a lead organisation was to submit two or more successful EOIs in one round, they would be asked which project they would like to proceed with and make a full application for. Please note that if your organisation makes a successful full application and is awarded a grant it is unlikely that we would fund a second project that would take place during the same delivery period.
- Sole traders are not eligible to apply. All applicants will be required to submit evidence of legal status and supporting documentation in English.

Timeline for Small Grants Applications

Small Grants Round 2	Small Grants under £100k
Expressions of Interest Open	1 August 2022
Expressions of Interest Close	16 December 2022*
Application Deadline	31 March 2023
Projects Start	July 2023

*Due to unexpected demand and reduced team capacity, we are introducing a deadline of 16th December for submitting the Expressions of Interest for the small grants. This means that you will not be able to submit any EOIs after 16th December. We will aim to respond to EOIs by the end of December and if accepted, you will be sent a link to the application form. The application deadline is fixed at 31 March, so the sooner you submit your Expression of Interest, if it is accepted, you will have longer to complete a full application, once applications are open for submission. Decisions on small grants applications are made quarterly, in June and September. Any applications received after the 31 March date will be too late to be considered for the June meeting.

- Projects which are not ODA compliant

What is ODA?

The Cultural Protection Fund is classed as official development assistance (ODA). Official development assistance is a term coined by the Development Assistance Committee (DAC) of the Organisation for Economic Co-operation and Development (OECD) to measure aid. Cultural Protection Fund projects are required to demonstrate that they are making a positive contribution to the social and economic development of one or more of the Fund's target countries. They should aim to further sustainable development (development that is likely to generate lasting benefits for the population of the country to which it is provided) or improve the welfare of the population. They should not aim to promote the culture or values of the UK.

Ensuring your project is ODA compliant

The Cultural Protection Fund is designed to be in line with ODA outcomes. Projects contributing to the outcomes of the Fund are therefore likely to be ODA compliant. However, you should consider the following questions and ensure that you have addressed them in your answers in the Application Form:

- Is the project addressing the social and economic development of the country in question?
- Is your project contributing towards reducing gender inequalities?
- Is there a development need that my project or activity is addressing?
- What is the evidence of the need?
- How will this project or activity be applied in the country?
- What will the impact of my project or activity be, and who will benefit?
- How will my project or activity contribute to sustainable development?
- How will success or impact be measured?

Conflict risk can be associated with past, current or potential future conflict, or instability caused by conflict. Our definition of the effects of climate change includes events caused by changes to the Earth's climate such as heat related damage, wind erosion, earthquakes, rising sea levels and

floods, but does not include regularly occurring weather such as heavy seasonal rainfall unless this has been exacerbated by climate change.

Provide a detailed summary of what your project will do. Describe project activities, where they will happen and who they are for. Include any outputs your project will produce (e.g. trainees, restored buildings, documented sites etc). Where possible, include target numbers. - Describe any social needs your project responds to, such as demand for the project from the local population and any issues with how people currently engage with and understand their cultural heritage.
- Describe any economic needs your project responds to, such as any barriers to the cultural heritage bringing benefit to the local economy.
- Does your project fit with any local strategies or wider initiatives (including any relevant international cultural protection programmes)?
- Are there any other organisations already delivering the type of work you propose to carry out? If so, how will your project complement these and avoid duplication?
- What other sources of funding have you considered for this project?

3c. What have you done already to prepare for this project? (Max 300 words)

Tell us about the options you have considered, and why this project is a suitable response to the problems and opportunities you have identified.

Include details about any consultation you and your partner(s) have undertaken (for example, with experts, others working in the field, members of the community and/or potential project participants) and how this has shaped your project proposal.

Section Four: Project outcomes

Select the outcomes that your project will achieve under the three outcome areas; HERITAGE, SOCIETY and ECONOMY. The full list of Outcomes is [here](#) in this document.

Please only choose the outcomes that are relevant to your project. Projects will be assessed on the quality and how well it is likely to achieve the outcomes, rather than on the number of outcomes achieved. The assessment will be based on how comprehensive and clear the plan is to achieve the outcomes.

4a. Which of the Cultural Protection Fund's 'HERITAGE' outcomes will your project achieve? Please explain how. Max 100 words per outcome

All projects are required to include outcome 1 (Cultural heritage at risk is safeguarded for future generations).

4b. Which of the Cultural Protection Fund's 'SOCIETY' outcomes will your project achieve? Please explain how. Max 100 words per outcome

4c. Will your project achieve the Cultural Protection Fund's 'ECONOMY' outcome? If so, explain how. Max 100 words

This outcome is not mandatory and please only include it if it is relevant to your project.

In your explanation, tell us why you have selected this outcome and why you think that your activities will achieve it.

4d. Measuring Impact

i. Please provide estimated figures in the table.

In this section, please provide estimated figures relating to your project activities. This section will help the assessor to understand the scope and reach of the project; be realistic and don't be tempted to overestimate as this will not strengthen your proposal. The notes column in the table is intended for brief notes on how you calculated the numbers, for example if you have recorded

that your project will directly benefit 100 people, it might be that you are delivering 5 workshops with 20 participants in each.

ii. Will your project address inequalities in leadership of, participation in, and / or accessing cultural heritage? Please explain how. (150 words Max)

The British Council is committed to promoting equality, diversity and inclusion through its work. This includes issues such as gender equality, which is a key priority for the Cultural Protection Fund. Consider how your project can address gender inequalities in the given context.

Also include if your project addresses inequalities regarding age, ability, sexuality, ethnicity and social/religious background.

Conflict and climate change can disproportionately affect marginalised groups and we are committed to ensuring that our funded projects benefit the whole population including those usually underrepresented in leadership of or participation in cultural heritage.

iii. What measures will you use to evaluate the success of your project from the beginning? (150 words Max)

You are required to evaluate your project in line with the guidance provided. Describe your proposed evaluation approach and who will have overall responsibility for this. For example, how you will collect quantitative and qualitative data throughout the project. This could be number of documented objects, before/after pictures or stories and case studies. Explain how you will share experience and lessons learnt as widely as possible.

Section five: Project management and delivery

5a. Project start date

Projects can begin from July 2023.

5b. When will your project finish?

Projects must end by 31 January 2025.

5c. How will your project be managed? Max 200 words in total

Please include your approach to project management, specifically:

- Who will be responsible for grant administration including reporting to the Cultural Protection Fund and ensuring that the budget and cashflow are kept up to date? We recommend that you dedicate resources to this.
- How will you communicate with your partners, other stakeholders, project participants and the CPF team?
- Explain your approach to safeguarding and managing risks

5d. What is the governance structure for the project? Max 200 words in total

Provide detailed information about the team that will deliver your project,

- Roles and responsibilities - who will be leading on the different areas of the project?

- Who is responsible for making decisions and approving changes to your project?
- How you will choose staff, services and goods needed during the project.

You may upload an organogram or other visual representation of how the project will be governed to support your statement.

5e. Please list your project activities in the table below.

Applicants should prepare a project activity plan which contains all project activities and the schedule of when they are likely to happen. This will help to work out the costs for project activities which will in turn help to prepare the total project budget.

Activity	Start date	End date	Where will activity take place?	Who will be responsible for delivering this activity?

Section six: Project Risks & Mitigations

6a. What do you consider to be the main risks that could impact the delivery of your project? And how will you mitigate or alleviate these risks?

Provide a realistic assessment of the risks your project may face so that you are in a good position to manage them. Rate the likelihood of these risks as High (H), Medium (M) or Low (L). The risks are categorised as follows:

- Security: risks related to the safety and security of project staff, participants or assets
- Operational: risks relating to the delivery of the project
- Financial: risks relating to the project's finances that could cause the project to go over or under budget
- Reputational: risks that could affect the reputation of the project partners and / or the fund / British Council

You need to provide details on how the risks are going to impact the project activities and the mitigation plan you have for each risk. We acknowledge that all CPF projects face risks and that they can be high in some of the places where our projects operate. It will not strengthen your application if you exclude these risks or underestimate the likelihood or impact.

Section seven: After the project ends

7a. How will the impact of your activities be sustained after the project is completed? (Max 300 words)

Provide detailed information about how the outcomes of the project will be managed and maintained once the project is completed. For projects involving physical works or the creation of digital heritage assets, a five-year management and maintenance plan must be produced during the project, and costs for this should be included within the project budget. The management and

maintenance plan will need to outline a schedule of necessary maintenance actions, action owners and associated costs.

If your project involves a visitor attraction or other business, and sustainability of project outcomes is dependent upon future income, you should attach an income and spending forecast to your application. This should outline income and expenditure for five years following project completion and explain how the project will be financially sustainable. Also explain any changes to the management or governance of the target organisation that will help to sustain the outcomes of the project.

Section eight: Project costs

8. Total grant expenditure (£)

Indicate the amount of grant in GBP which will be spent during each financial year (April-March).

The total grant must be up to £100,000.

Please note that for each financial year you must have completed the work allocated for the year and submitted the documents for this work for approval via a formal payment request by the deadline specified in your payment schedule. Any grant funding not duly requested and approved by this time cannot be rolled over to the next financial year and therefore will no longer be available. You must attach a monthly cash flow (template provided) profiling all expenditure and income for the duration of the entire project.

N.B. Your project budget

Use the Project Budget Template to provide a summary of the costs relating to your CPF grant request (do not include costs relating to partnership funding or any other sources of income). Please use multiple rows per cost heading to break costs down to an appropriate level. You may add extra rows where necessary. You should only fill in the cost headings which are relevant to your project.

Please read the following notes before completing your Project Budget:

VAT (Value Added Tax)

- If you are liable to pay VAT on certain costs incurred in the UK, you should include irrecoverable VAT in the VAT column for all relevant costs.
- The British Council cannot provide advice on VAT liability. Any queries should be directed to HM Revenue & Customs.
- We cannot authorise the transfer of any part of the project costs to or from VAT. This means that if you underestimate VAT, you will have to pay the extra costs, and if your VAT status changes so that you can reclaim more than you expected, you will need to return the relevant portion to us.

Capital cost headings

Physical conservation work

Costs of physically protecting or securing cultural heritage sites or assets.

Equipment and materials

All equipment and materials relating to the above physical work or purchase of supplies for future work as outlined in the mitigation plan. It also includes storage and packing. Do not include materials relating to training and activities here.

Other

Please list any other items that you consider to be capital costs.

Professional fees relating to any of the above

This includes any person appointed for a fixed fee to help with planning and delivering capital work in your project.

Activity cost headings

Existing Staff costs

This may include the costs of extra hours for existing staff where we consider a reasonable amount of existing staff costs which relate directly to project delivery, are not funded by any other source and are necessary to enable project delivery. If you intend to include existing staff costs in your budget, you will need to calculate the percentage of the staff member's time to be spent working on the project and clearly indicate which staff costs in the budget are for existing staff. Existing staff and overhead costs may not exceed 25% of the total project budget. Do not include the costs of paying trainees here.

New Staff costs

This may include the costs of new fixed-term contracts, freelance staff or the cost of filling a post left empty by moving an existing member of staff into a post created for the project. Use a separate line for each new staff member in your Project Budget.

Training for staff

This includes the cost of all trainers and resources needed to deliver activities to help staff from local partner organisations gain new or increased skills.

Paid training placements

This includes bursaries or payments to trainees in or from target countries, as well as all resources needed to deliver activities to help trainees gain new or increased skills.

Training for volunteers

This includes the cost of all resources needed to deliver activities to help volunteers in or from target countries to gain new or increased skills.

Travel for staff

This may include the cost of travelling to a site or venue. Economy class should be booked for air travel, and standard class for train travel. Travel costs by car should be based on the appropriate rate per mile in the given country.

Travel and expenses for volunteers

This may include food, travel and any other expenses to ensure volunteers are not out of pocket. The above travel policy for staff also applies to volunteers.

Equipment and materials

This includes the equipment and materials related to all learning, engagement and advocacy activities. Do not include materials relating to training here.

Access requirements

If your organisation has access requirements (for example, this might include sign language interpreters or personal assistants) in delivering this project, you will be able to request additional funds beyond the core grant in the budget section of the form.

Other

Include any other costs relating to activities here.

Professional fees relating to any of the above

This includes any person appointed for a fixed fee to help with planning and delivering the learning, engagement or advocacy activities of your project.

Other cost headings

Recruitment

This can include advertising and travel expenses.

Publicity and promotion

This includes promotional materials that relate directly to your project.

Evaluation

You must evaluate your project, and we recommend you allow sufficient budget for this process here. Staff in your organisation can do this, or you may want to employ someone to help. Evaluation costs should be approximately 3% of your overall project costs. Further evaluation guidance will be provided to successful applicants.

Other

Include any other costs which are relevant to your project (and not covered by any of the headings above).

Contingency

Make sure that you only include contingency here and not in the costs under each cost heading. Not all cost items will need a contingency. In the description box, explain how you calculated contingency. Your calculation for contingency should reflect:

- the degree of certainty with which you have arrived at your cost estimates.
- the project plan; and
- the risk in relation to your project location and the type of project you are carrying out.

You will need to seek approval from us for use of contingency during project delivery.

Inflation

You should include an allowance for inflation for any items that may increase in cost over the period of your project. Please provide a detailed working of your calculation in the description box.
