LESSON 3

Learn More About The Commonwealth

Learning outcomes To develop knowledge and understanding of the member states, including similarities and differences, and make friends with other children from around the world.

Remind pupils how all the countries in the Commonwealth are independent and equal nations. Through friendship and respect, they work together by sharing ideas and experiences, skills and knowledge, in order to help each other.

Just like a school, the Commonwealth countries have a list of rules to protect people and help the member states to do well. These rules are called values and principles and make up the Commonwealth Charter. The Charter is at the heart of everything the Commonwealth does.

Show the class the Commonwealth Charter resource, in Appendix A. Discuss the questions. You can compare the Charter with your school rules, so that pupils can talk about the differences and similarities.

Hand out the bingo grids, in Appendix C. You can also share copies of the Charter poster, in Appendix B, for the pupils to reference during the game. Ask the pupils to fill out the grids with numbers from 1-16. Explain that these relate to the numbers in the Charter, and that you’re going to read out definitions and pupils have to guess which Charter number they relate to. Read out the first definition from your caller sheet, in Appendix D:

1. Treat all people as equal and with respect (e.g. gender, race, colour, language, political beliefs, or religion). Give everyone access to education and healthcare.

Ask the pupils to guess which value and principle it is linked to.

Answer: the first definition is for Charter rule 2 – Human Rights.

Pupils should then cross off the Charter number on their bingo grid. Continue with the game. The first pupil to complete a row should call out, ‘Bingo!’. You can keep going until the first five pupils have completed a row...
