

# Foundation English Test

---

## Introducing a new feature – digital badges for candidates

**Foundation English Test Candidate reports from the British Council offer not only digital verification in real time but also digital badges for candidates to share.**

From 2 July 2025, all Foundation English Test candidates who provide a valid email address during registration will be able to sign in to the Accredible platform and share their digital badge with the CEFR level on social media.

This new feature enables candidates to showcase their achievements to increase their employability prospects and make their portfolio stand out.

The digital badge can be shared to LinkedIn, Facebook, WhatsApp and even Instagram and TikTok, among many other social media channels available.

Candidates can access their badge by scanning the QR code or following the link on the bottom of their Candidate report. Once they sign in to their Accredible account, using the 'Forgot your password' option, they can change the privacy settings of their credentials for public access and share the digital badge to their social media. Please note that all email addresses need to be provided before candidates take the test and that due to security measures incorrect email addresses cannot be edited after candidates are registered for the test.

The Accredible page is adjusted to both desktop and mobile displays to allow for easy sharing.
