

# UK-Brunei Higher Education Teaching and Learning Partnership

## Invitation

Dear UK institutions,

The British Council is pleased to share with you that we have recently launched the '**UK-Brunei Higher Education Teaching and Learning Partnership Project**' funded by the Foreign Commonwealth and Development Office through the ASEAN Dialogue Partner Grant. The project is part of the British Council's Going Global Partnership Programme to enable UK-Brunei higher education collaboration, enhance internationalisation, and strengthen institutional partnerships through sharing knowledge and principles of good practice.

The Partnership project will offer opportunities for UK universities to engage and collaborate with Brunei universities to support greater internationalisation of both institutions and develop academic partnerships such as transnational education (TNE), joint or double/dual degree programmes, or credit sharing programme on specific subjects aligning to SDG.

As part of the Project, the British Council will organise a 2-day virtual workshop in February 2022 and bring together Brunei and UK universities to jointly develop strategic plans for academic partnerships and engagement. After the workshop, the participants will be eligible to apply for the **British Council's Seed Grant** where up to 2 grants worth £10,000 will be available to support joint Brunei and UK partnerships that will lead to improved quality of teaching, learning and research, strengthened international strategy and academic partnerships, stronger platform for future support and engagement, and closer relations between Brunei and UK higher education sectors. The Seed Grant will only be available for participants that join the workshop.

The Project activities are as follows:
