

Lagos State

Education Partnership Opportunities

Our Vision for Lagos

An aerial photograph of a multi-lane highway bridge spanning a large body of water. The bridge has several lanes in each direction and is supported by numerous piers. In the foreground, a dense slum with many small, makeshift structures is visible on the water's edge. The sky is clear and blue.

By 2025, Lagos will be Africa's Model Megacity. A Global, Economic and Financial Hub that is Safe, Secure, Functional and Productive.

A large, diverse crowd of people is shown in a semi-transparent text box. The text is white and reads: "By 2030, Lagos is projected to become the **third largest consumer market** in the world with a population of **35.8 million**, closely behind Tokyo and Delhi accordingly." The background shows a dense crowd of people, with one person in the foreground raising their hand. The text is overlaid on the right side of the image.

By 2030, Lagos is projected to become the **third largest consumer market** in the world with a population of **35.8 million**, closely behind Tokyo and Delhi accordingly.

The Landscape

“...by 2035, the number of Africans joining the workforce (15-64) will exceed that of the rest of the world combined, but Sub Saharan Africa’s education systems are not meeting workforce needs.”

LASU BUSINESS SCHOOL

Lagos State University is partnering with Cornell University to set up a world-class business school in the heart of the Lagos Business District, Victoria Island.

The Lagos State Government is supporting the transaction by providing the facility to house the new business school.

The Business School is expected to be operational by 2020.

Prof. Sine Wesley
Cornell University

UNIVERSITY OF EDUCATION

Following an extensive review of the two Colleges of Education in Lagos State, the State Executive Council has approved the conversion of **Adeniran Ogunsanya College of Education** to a **University of Education**.

This will be a catalyst to make the teaching certification attractive to bright students who can see a clear career path from attending this institution.

OPEN AND DISTANCE LEARNING

Micheal Otedola College of Primary Education is being converted to an **Open and Distance Learning University**.

There is unmet demand for University Education in Nigeria and an Open and Distance Learning University positions Lagos State to meet some of this demand.

In 2016, 180,000 students applied to Lagos State University and only 5,000 could be admitted.

- (Source LASU)

READYSETWORK

Vision: “Every student who graduates from a tertiary institution situated in Lagos will have the **knowledge, skills, and attitude** required to **gain meaningful employment** or be **self-employed**”

13-week entrepreneurship and employability program that prepares **final year students** for immediate entry into the workforce as **employees** and **employers of labour** by equipping them with **market-aligned soft skills, business tools,** and a **mindset reorientation** to the **world of work.**

CODELAGOS

Vision: To make **Lagos State** the **Technology Frontier** in **Africa**.

Our goal is to Teach **1,000,000** Lagosians to Code by 2020

Objectives:

- Position students in Lagos State to:
- Approach the world of work as problem solvers
- Come up with Innovative Solutions to local problems
- Meet the growing demand for tech skills
- Harness, create, and leverage on local & global opportunities

TVET

Our vision for TVET in Lagos State:

To create a TVET system that provides the **manpower** to drive the **Lagos economy**, **reduce our dependence on imported labour**, **attract investment** and become a **net exporter of technical and vocational skills**

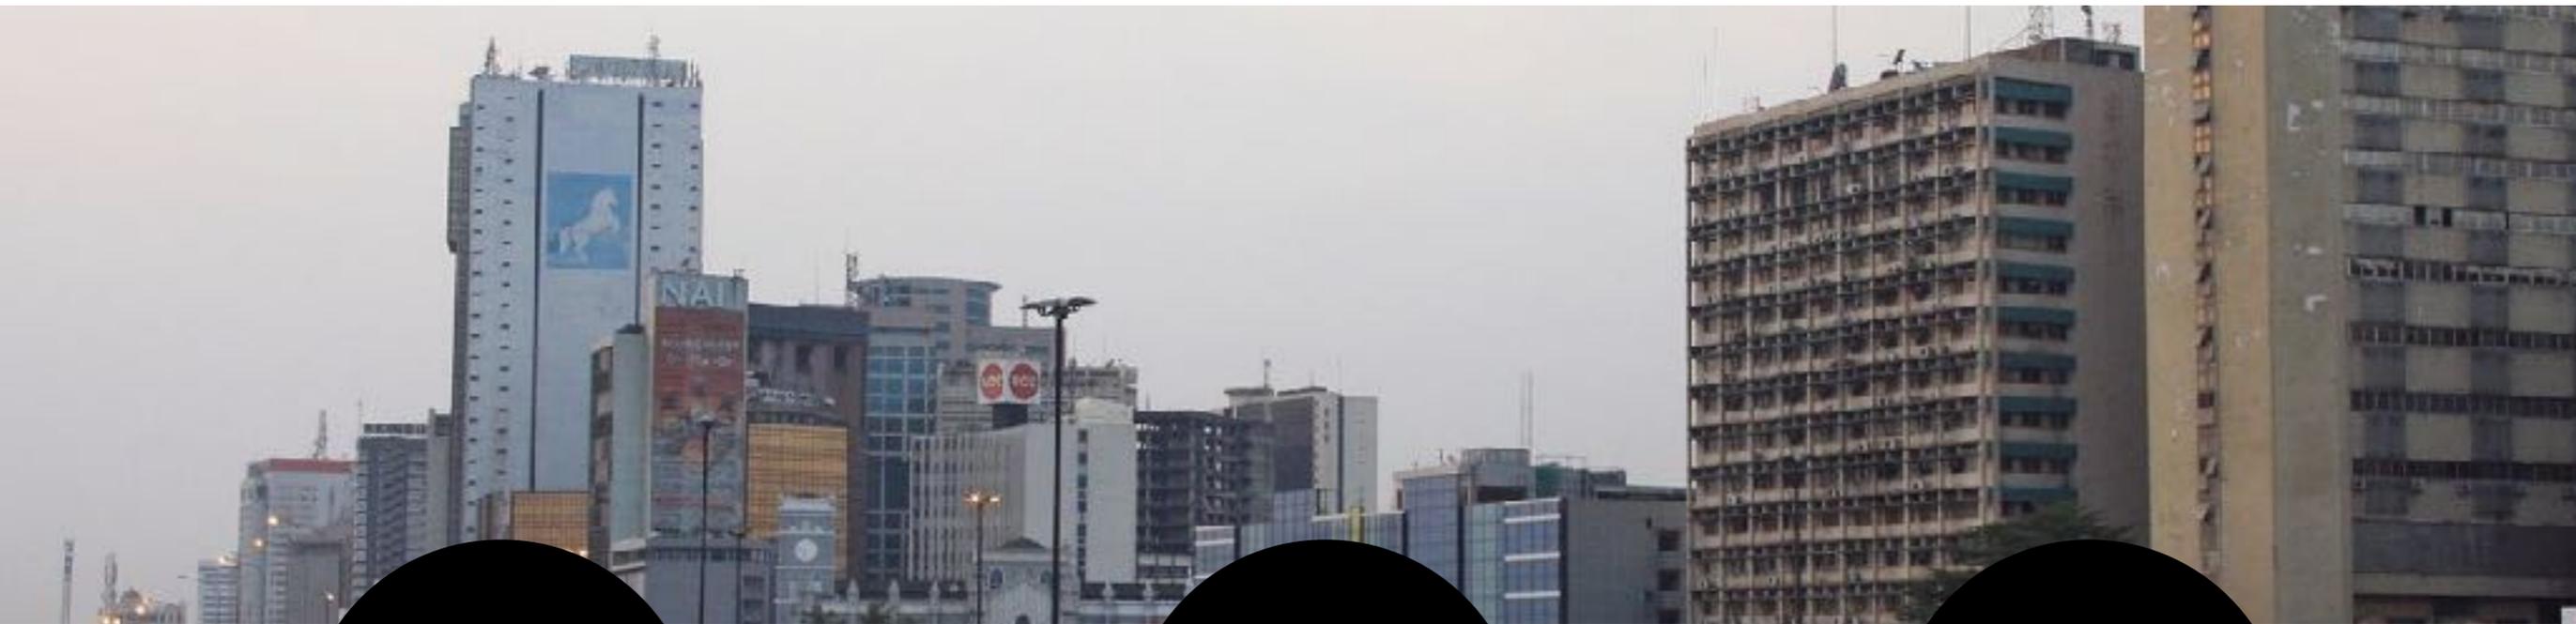

The Journey So Far:

- Extensive review of the TVET system in Lagos State
- Engagement with key stakeholders
- Review of existing private sector players and government facilities.
- Case study review of several models: Germany, Brazil and United Kingdom
- Approval by EXCO to commence restructuring of TVET.
