Grants Awarded: Newton Fund Researcher Links Travel Grants – July 2017 call

Eligible partner countries: Indonesia; Latin America Regional; Peru; Philippines; South Africa

- Total eligible applications – 66
- Funded applications – 43 (65%)

Home Country	Host Country	UK Institution	Partner Institution	Project Title	Review Panel
United Kingdom	Peru	University of Leeds	Pontificia Universidad Católica del Perú	Viscous Cities: Landslides and Urbanization in Contemporary Andean Cultures	Arts and Humanities
Peru	United Kingdom	University of Surrey	Centro de Investigaciones Tecnológicas, Biomedicas y Medioambientales - CITBM	Human-Wildlife interaction and health in Peru: Bat bites and disease risk	Biological and Medical Sciences
Peru	United Kingdom	University of the West of England	Centro de Competencias del Agua	Water governance in mountainous regions: drivers and adaptive responses to global change	Social Sciences
Peru	United Kingdom	University of the West of England, Bristol	Universidad Peruana Cayetano Heredia	Development of innovative green infrastructure for remediating and recovering contaminated environments in Peru	Environment, Agriculture and Food Sciences
United Kingdom	Peru	Bournemouth University	La Universidad Peruana de Ciencias Aplicadas (UPC)	Tourism's role in protecting and restoring natural capital in Amazonian Peru.	Social Sciences

Peru	United Kingdom	Wellcome Trust Sanger Institute	Universidad Peruana Cayetano Heredia	Genomic epidemiology of antibiotic-resistant enterobacteria in human, animal and environmental reservoirs in Lima, Peru.	Biological and Medical Sciences
Peru	United Kingdom	University of Surrey	Universidad De Piura (UDEP)	Enabling Technologies and Process Engineering for Biomass utilization	Environment, Agriculture and Food Sciences
Peru	United Kingdom	University of Salford	Universidad Nacional de Tumbes	Use of composites of biochars and advance nanomaterials for the abatement of heavy metals and arsenic from water used in rice irrigation in Tumbes-Peru	Environment, Agriculture and Food Sciences
Peru	United Kingdom	University of Hull	Universidad Peruana Cayetano Heredia	Exploring methods to evaluate oil pollutant exposure in aquatic biota in rivers of the Peruvian Amazon jungle.	Environment, Agriculture and Food Sciences
Peru	United Kingdom	Cardiff University	CONOPA - Instituto de Investigación y Desarrollo de Camélidos Sudamericanos	Genetic characterisation and sustainable management of Peru's wild camelids	Biological and Medical Sciences
Indonesia	United Kingdom	Leeds Trinity University	University of Riau	Healthy lifestyle: Implications of positive spiritual wellbeing for young people with depression	Social Sciences
South Africa	United Kingdom	University of Manchester	University of KwaZulu-Natal	Numerical Studies in the Peristaltic Flow of Non-Newtonian Fluids	Engineering and Physical Sciences
South Africa	United Kingdom	Rothamsted Research	University of the Free State	Estimating nitrous oxide emissions and nitrate leaching in maize production (<i>Zea mays L.</i>) in South Africa.	Environment Agriculture and Food Sciences
South Africa	United Kingdom	University of Roehampton	University of Pretoria	Co-constituting the process of schooling: Intervening to improve partnerships between teachers, parents and learners.	Social Sciences
South Africa	United Kingdom	University of Sussex	University of Johannesburg	The narratable self on film: alternative identity construction, narrative research and the role of autoethnography, personal storytelling and filmmaking in working with marginalised subjects.	Arts and Humanities
South Africa	United Kingdom	University of Reading	University of Pretoria	Promotion of sustainable economic development by fully implementing the South African Animal Traceability System to include communal farmers to export safe meat worldwide, based on previous successes.	Environment Agriculture and Food Sciences
South Africa	United Kingdom	University of Birmingham	Tshwane University of Technology, Pretoria, South Africa.	Chemical sequestration of emerging organic pollutants in treated effluent using low-cost adsorbents derived from agricultural wastes	Environment Agriculture and Food Sciences Panel

South Africa	United Kingdom	University of Nottingham	University of Pretoria	Investigating the effect of RBBP6 on MALAT1 gene expression and angiogenesis in cervical cancer cell lines	Biological and Medical Sciences
South Africa	United Kingdom	Cambridgeshire Community Services NHS Trust	University of Johannesburg	Developing a South African Model of Neuropsychological Rehabilitation for Adults after Acquired Brain Injury	Biological and Medical Sciences
South Africa	United Kingdom	University of Stirling	Cape Peninsula University of Technology	DEVELOPING MYSELF AS A RESEARCHER AND LEARNING ABOUT THE FUNCTION OF RETAIL CENTRES FOR RESEARCH IN ORDER TO ASSIST IN THE DEVELOPMENT OF THE CENTRE FOR REAIL IN MY HOME UNIVERSITY	Social Sciences
South Africa	United Kingdom	University College London	University of the Witwatersrand	Examining social exclusion and health system responsiveness among migrants and refugees utilising public health care services in Gauteng, South Africa: implications for universal health coverage	Social Sciences
South Africa	United Kingdom	Plymouth University	Albany Museum	Taxonomy of Aquatic Beetles	Biological and Medical Sciences
South Africa	United Kingdom	University of Manchester	University of Johannesburg	Bridge over troubled waters: Testimonies from marginalized groups in society	Social Sciences
South Africa	United Kingdom	University of Huddersfield	Central University of Technology	TOWARDS DEVELOPING AN EFFECTIVE DISASTER RISK MANAGEMENT MODEL FOR THE FREE STATE PROVINCE.	Social Sciences
South Africa	United Kingdom	University of Nottingham	Sefako Makgatho Health Sciences University	Development of a model for nurses to care and support victims of gender based violence	Social Sciences
South Africa	United Kingdom	University of Southampton	University of Zululand	Application of Spatio-temporal to study the Distribution of the under-five child mortality in Rwanda including South Africa using Multiple Survey Data.	Engineering and Physical Sciences
South Africa	United Kingdom	Centre for Ecology and Hydrology (CEH)	Rhodes University	Aquatic plants: useful tools for freshwater conservation and management	Biological and Medical Sciences
South Africa	United Kingdom	University of Manchester	Cape Peninsula University of Technology	Characterization and application of metallic materials in additive manufacturing technologies.	Engineering and Physical Sciences
Chile	United Kingdom	Aberystwyth University and Marine Biological Association	Pontificia Universidad Catolica de Chile	Knowledge and gaps: projecting the impact of kelp fishery in Marine Communities of Central - Northern Chile	Environment, Agriculture and Food Sciences
Argentina	United Kingdom	Cardiff University	Universidad Nacional del Litoral	Development of strategies for the analysis of genomic and transcriptomic data of reptile and amphibian species of environmental, commercial and health importance	Environment, Agriculture and Food Sciences
United Kingdom	Brazil	Durham University	Federal University of São Carlos	The ecological and human impacts of invasive Hedychium coronarium-capybara dynamics in São Paulo State,	Environment, Agriculture and Food Sciences

				Brazil	
Colombia	United Kingdom	The Natural History Museum	Instituto de Investigaciones Biológicas Alexander von Humboldt	Identification of risks and opportunities for the conservation of butterflies in post-conflict Colombia	Biological and Medical Sciences
Chile	United Kingdom	University of Cambridge	Universidad de Concepción	Linking biodiversity and ecosystem services in changing landscapes	Environment, Agriculture and Food Sciences
United Kingdom	Argentina	University of Reading	Instituto de Investigaciones en Recursos Naturales, Agroecología y Desarrollo Rural (IRNAD)	Better crop pollination and pest regulation for the Ecological Intensification of smallholder farmers in Argentina	Environment, Agriculture and Food Sciences
United Kingdom	Colombia	King's College London	Pontificia Universidad Javeriana Cali	Prioritizing ecological restoration in degraded watersheds	Environment, Agriculture and Food Sciences
United Kingdom	Peru	Cardiff University	Universidad Nacional Mayor de San Marcos	Genetic characterisation of the demographic history and conservation status of wild and domestic South American Camelids	Environment, Agriculture and Food Sciences
United Kingdom	Mexico	Lancaster University	Centro de Investigación y de Estudios Avanzados del Instituto Politécnico Nacional (CINVESTAV), Mexico	Measuring carbon flows in mangrove ecosystems: importance and vulnerability	Environment, Agriculture and Food Sciences
México	United Kingdom	University of East Anglia	Universidad Autónoma Metropolitana (UAM) (Metropolitan Autonomous University)	Conservation and sustainable management of biodiversity and ecosystem services in peri-urban areas of Mexico	Social Sciences
United Kingdom	Chile	University of Stirling	Austral University of Chile	An interdisciplinary approach to encourage coexistence between livestock production and biodiversity conservation in Chile	Environment, Agriculture and Food Sciences

Peru	United Kingdom	University of Leeds	Instituto de Investigaciones de la Amazonia Peruana	Dissolved organic carbon (DOC) fluxes and the hydrological budget in Peruvian tropical peatlands.	Environment, Agriculture and Food Sciences
Mexico	United Kingdom	University of St Andrews	El Colegio de la Frontera Sur (ECOSUR)	Managing cattle ranching and biodiversity conservation conflicts in Latin America: Decision-making processes to reconcile paradoxical local and global goals	Social Sciences
United Kingdom	Brazil	University College London	Universidade de São Paulo	Wasp farms as natural bio-control for sustainable agriculture	Biological and Medical Sciences
Chile	United Kingdom	University of Warwick	Universidad de Antofagasta	Does the combination of anthropogenic pollutants (i.e. microplastics and metals from mining) have a synergic effect on marine microbial biodiversity in the north coast of Chile?	Environment, Agriculture and Food Sciences
