- This document refers to the following opportunity: technical assistance to Peruvian governmental leaders on the internationalisation of higher education, generating insights and connections for the enhancement of Peruvian and UK sector engagement.

British Council Peru leads the project **System reform, internationalisation and MRQ**. The focus of this project is long-term collaborations, system and regulatory change in order to support higher quality, stronger tertiary education systems that are more open and globally connected. Through this work, the project supports sustainable collaboration and knowledge exchange in the areas of internationalisation, academic quality, distance education, research collaboration and the operationalisation of the recently ratified treaty signed by Peru and the UK for the mutual recognition of qualifications and awards.

Since reopening its operations in Peru in 2015, British Council has been working with government and institutional stakeholders in Peru, supporting them in strengthening internationalisation and research collaboration through the generation of insights, study visits, working groups and policy dialogues.

Peru's University law was approved in 2014 and since then, Peruvian higher education has undergone six years of reform, reshaping the institutional landscape and strengthening quality assurance.

Since this reform process was launched in 2015 only 94 universities and graduate schools out of 145 existing providers have renewed their operating licenses as of May 2021. Now this licensing process stage, which lasted approximately 5 years, is shifting its focus towards a broader approach for the development of research and academic management, which places research collaboration and internationalisation at the heart of a new development framework that should be in place as part of "licensing 2.0" stage.

The above scenario, disrupted by the Covid-19 pandemic, has placed additional challenges on the reform process, accelerating the need for distance education at public and private universities across the nation. This has required adaptation of regulatory frameworks for virtual education and established a sense of urgency on the adaptation and development of norms, tools, and standards for education provision.

In addition to the sector scenario described, most recent reform milestones were marked by the approval of the [National Policy for Higher Education and Technical Productive Education](#) (2020) and the Ministry of Education [Law of Organisation and Functions](#) (Jun 2021) which have led British Council to engage with policy makers and key sector stakeholders for the design of strategies to implement change at a systemic level, bringing UK expertise to support decisions and share best practices in academic management and delivery, research collaboration and internationalisation.

In this context, the British Council is commissioning a consultancy service to develop online technical assistance that allows capacity strengthening of governmental HE leaders and policy makers on: Internationalisation of Peruvian higher education generating insights and connections for focused interinstitutional collaboration, research areas and policy innovation between Peruvian and UK institutions.

The consultancy aims to strengthen Peruvian HE leaders and policy makers in the development of strategies, regulatory frameworks and the implementation of actions on internationalisation, research, hybrid education and access to HE, strengthening the connection and collaboration between HE institutions from Peru and UK and contributing to the implementation of the priorities within the framework of the National Policy for HE. The specifics are referenced in Section 7.

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tenders responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed Qualification Questionnaire (*if used*) will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential

suppliers that do not meet the qualification criteria set out in the Qualification Questionnaire (*if used*) may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council’s requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire (*if used*) responses may also be verified as part of this stage.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Social value	10%
Professional experience, qualifications and competencies of the team	30%
Methodology and Approach that demonstrates that the consultant understands the request and the type of organisation the British Council is	40%
Value for Money (Pricing per activities plus maximizing the available budget including senior staffing available)	20%

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
--------	----------------

10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidder’s failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

14.4 Commercial Evaluation – Your “Overall Price” (as calculated in accordance with requirements of Annex 4 (Pricing Approach section) for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the British Council as part of the pricing approach. In the event

that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest "Overall Price". Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire (*if used*). If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire (*if used*) as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
