

## WORKSHOP 1

Topic: **Artificial Intelligence**

Date: **19-21 November 2018**

Location: **Oxford, UK**

Venue: [University of Oxford](#)

### Background

The Poland- United Kingdom Year of Entrepreneurship, Science and Innovation (PL-UK YESI) was agreed upon during the bilateral intergovernmental consultations held in Warsaw in December 2017. The aim of the year is to promote the innovative and cross-cutting relations between the UK and Poland. Numerous events, including these YESI workshops in Poland and UK, are planned by the **Ministry of Science and Higher Education of Poland, the British Embassy in Warsaw** and **British Council Poland** to create a communication platform that will lead to long-term collaboration in the areas of entrepreneurship, research and innovation.

### Workshop aim, participants and structure

The YESI workshop aims to create a space for researchers from Poland and UK to create partnerships between individuals and institutions from both countries. This will start the search for funding opportunities, the implementation of research projects and the application of the research to the social and economic benefit.

The maximum number of participants is 30 (up to 15 from each country), including two coordinators (one on each side), who will be supporting the workshop management.

The workshop will start from lunch on Day 1, followed by the familiarisation and information sharing session and dinner. Day 2 will be devoted to building that joint research networks and collaboration proposals. Day 3 gives participants the opportunity to present the outcome of their team work as well as to continue work in a less formal setting perhaps with visits to Polish institutions and research organisations.

### Requirements

- Applicants must be based at a recognised publicly funded research establishments or Higher Education Institutions (can include private universities)
- Researcher must be working in the relevant academic disciplines.
- Researchers need to have at least 2 years academic experience in the relevant discipline. We welcome applications from researchers with a range of experience including those in the later stages of their Ph.D, early career researchers, established and experienced researchers and will look to have a range of participants at the events.

### Language

Workshops will be held in English. It is expected that all participants will have a sufficient standard of English to engage fully in discussions and team work (minimum of C1).

### Costs

The costs of air travel, accommodation (2 nights) and meals (from lunch on Day 1 until lunch on Day 3) are covered by the organizers.
